

Phoenix Rising

Out of hellfire, out of the deep
A magic mystery's awaking from it's sleep
Reborn from ashes of a thousand years
Sent to earth to dry a million tears

Made in fire, out of the dark
Cast in iron, unbreakable

Born from the ashes

Phoenix rising

Into the light

Phoenix rising

Out of the darkness

Phoenix rising

He turns back to life

Phoenix rising

Out of a spark, out of a tear
He saves all of us from all our fears
The legend has been told for a long, long time
Mankind is waiting for a liberating sign

Wings of fire, glory and hope
Change our sad lives to survive

Born from the ashes
Phoenix rising
Into the light
Phoenix rising
Out of the darkness
Phoenix rising
He turns back to life
Phoenix rising

Solo

Born from the ashes
Phoenix rising
Into the light
Phoenix rising
Out of the darkness
Phoenix rising
He turns back to life
Phoenix rising
